

YAN_

 mdd

It is well known that only the proper conditions can promote significant creations, development and expansion.

While designing our products, we always think about the needs of our clients and constantly changing market expectations.

Furniture from MDD is characterized not only by the high-class technology, superb quality and contemporary design. It is also a large diversity of products with ergonomic qualities, which create perfect working conditions for the direct users. Becoming a leader and sustaining a leadership position in the office furniture sector has always been the mission of the company. We are the biggest Polish manufacturer in terms of workplaces being produced and one of the Europe's leading producers in the reception furniture branch. Our effective operation cycle and complex customer service are appreciated in Europe, USA and GCC-countries.

DRIVE

DRIVE bench gives the opportunity of quick and easy adjusting to individual needs without compromising on functionality and space. Each work counter has its own individual mechanism which works independently. DRIVE bench can be equipped with fabric panels to divide a work surface for more privacy. Dividing the work surface does not, in any way, reduce the access to the horizontal cable management underneath the work top.

DRIVE is an electric height regulation desks which allows for customized standing and sitting positions and is a great ergonomically solution.

The electrical height regulator, located underneath the work surface, simplifies changes in positions depending on one's office needs.

Changing position during long working hours increases work effectiveness, productivity and health. To create an intimate climate, DRIVE allows you to add acoustic panels. There are two types of acoustic panels which fit perfectly both horizontally and vertically to the worktop.

YAN_Z

YAN_Z

YAN promotes interaction when employees spend time in teams and allows for privacy when needed. YAN meets office demands by improving performance and customer satisfaction. Thanks to its coherent attributes you can organize your office and reinvent a creative and functional space.

YAN is a simple yet multi-functional system which blends well into an office space arrangement.
 Its' flexibility allows for a quick response to different office work requirements.
 Sliding desk tops give easy access to cable management.
 Distinctive panel designs enable to build an office of a particular character.

YAN_Z

YAN has been designed to offer the possibility of combining different components into a multi functional office layout. Tambour or sliding door storages, high or desk level can be used as an end element. Different height and functionality pedestals may act as both dividing or finishing section; individual or team storage.

YAN is the ultimate solution for companies that have multiple project teams who need more room to work and positively interact. YAN was developed in such a way that essential ideas can be exchanged. This is why you can use the panels interchangeably by dividing your workplace into straight or intersecting sections. In our offer, you can find five different types of panels which differentiate themselves by shape, finish and color.

Images in the catalogue may show products slightly differently from the original version. Colours of shown materials may differ from the real ones.

The producer reserves a right to introduce changes of colours and patterns of the presented products.

The manufacturer reserves the right to introduce alterations to the products and their marking without changing the general design.

The present catalogue does not constitute a legally binding offer and is published solely for information purposes. Order may be placed only on the basis of the current price lists, available at authorised distributors.
